

Bruno Panasiewicz (they/them)

- Kraków, Poland (willing to move)
- uakci@uakci.pl ▫ +48 793 832 659 ▫ list of public projects: uakci.pl

deal

- CS autodidact with 10+ years of diverse experience
- one-man-band full-stack development
- speaks English with native-level fluency; enjoys social, public-facing work
- decent knowledge of algorithms and patterns – in theory and in practice
- good problem solver and researcher, eager to cooperate and communicate

technologies

- spent over 7 years using Linux on the daily (Ubuntu, Arch, NixOS)
- familiar with coreutils, bash, git, ssh...; performer of vim, sed, jq wizardry
- web technologies (HTML/CSS/JS, 5 years), basic networking (DNS, routing)

achievements

- managed an end-all-be-all Linux box for 4 years, coming to host 30 different services on systemd + nginx + Docker + Drone CI. (no, kubernetes is not the solution)
- codified the above mess in a ~700 LOC nix config, including a DNS server
- built a complete “collaborative dictionary” web app clocking in at 1,500 LOC featuring a bespoke frontend UI and API backend with auth and spaghetti code

programming langs

- currently productive in Node.js (4 years), Go (2 years)
- had contact with C++, Java, Scala, Clojure, Python, Scheme, etc., in the past
- comfy with functional and declarative programming
- quickly adapts to new PLs. also learning Rust at the moment

education

- graduated music high school with exceptional marks in English and IT
- excels in undergraduate-level mathematics
- loves languages (snappy Lojban, crappy Japanese) and composing music

make me do this:

- work remotely at first (as a trial), then move to Canada or Northern England
- solve open-ended tasks and problems, from design to implementation
- manage the backend, the frontend, the infrastructure, or a little bit of each
- learn new and fun languages/technologies/frameworks/paradigms!
- get to talk to and collude with people who are passionate about their job
- write documentation or anything else that requires plenty of wordsmithing
